

E-Commerce Product Listing

Objective

Create a responsive product catalogue using **CSS Grid for products** and **Flexbox inside each product card**.

Typography

Element	Style
Product title	16px, font-semibold
Price	20px, font-bold
Old price	14px, line-through
Category	13px
Filter heading	16px, font-semibold
Body	14px

Colour Palette

Background	#F8FAFC
White	#FFFFFF
Heading	#111827
Body	#6B7280
Primary	#2563EB
Sale	#DC2626
Border	#E5E7EB
Rating	#F59E0B

Product Card

Dimensions:

Desktop width:	260px
Image height:	220px
Padding:	16px
Border radius:	12px
Border:	1px

Card structure:

Image
↓
Category
↓
Product name
↓
Rating

↓
Price + old price
↓
Add to Cart

Use:

`flex flex-col`

inside the card.

Main Layout

Desktop:

Sidebar: 240px
Gap: 32px
Products: remaining width

Products:

`grid-cols-3`
`gap-24px`

Tablet:

Sidebar → horizontal filter bar
Products → 2 columns

Mobile:

Sidebar → hidden
Products → 1 column

Responsive Breakpoints

< 640px	1 product
640-1023px	2 products
≥ 1024px	3 products
≥ 1280px	4 products

Extra Requirements

Implement:

- Product hover shadow
- Image zoom on hover
- Button hover state
- Responsive navigation

- Filter panel
- Product badges such as `SALE` and `NEW`
